

Ultralyd I

To-dags praktisk kursus i ultralyd på grundniveau.
Kurset kombinerer teoretiske forelæsninger med praktiske øvelser.

- 25.-26. maj 2019
- Birkerød Dyreklinik, Hovedgaden 25, 3460 Birkerød
- Pris: 7500 kr. eks moms inkl. forplejning
- Kursusprog: engelsk
- Tilmelding: bogholder@vetgruppen.dk
- Forelæser: Samuel Jakovljevic DVM DVR MSc DipECVDI MRCVS

Dette kursus er designet til dyrlæger med begrænset erfaring med diagnostisk ultralyd. Målet med kurset er at opnå stabile færdigheder i praktisk ultralydsscanning af abdominale organer.

Kurset er et eksklusivt kursus med max. 15 deltagere, hvilket giver mulighed for grundig vejledning under de praktiske øvelser.

Kurset indeholder

- Maskinopsætning
- Ultralyd af lever og milt
- Ultralyd af mavetarmkanalen og de indre kønsorganer
- Ultralyd af urinveje

16:30-17:00	Video clips examples/discussion

Samuel Jakovljevic DVM DVR MSc DipECVDI MRCVS

Sam graduated from the University of Liège Veterinary School in Belgium in 1976. After spending a year in general practice at one of the busiest small animal practices in Brussels, he joined the Department of Surgery and Radiology at the University of Liège Veterinary School. He trained in radiology at Bristol Veterinary School, and spent a further year there doing clinical research, resulting in an MSc thesis investigating double contrast gastrography and gastroscopy. He was a Lecturer at the University of Liverpool for 2 years. After a few years back at University of Liège Veterinary School, he joined the Imaging Team of the Department of Veterinary Clinical Sciences at Purdue University, USA. Ten years later, he returned to England and became Senior Lecturer at the Royal Veterinary College. After a period working for an American medical company, he returned to clinical work and joined DWR in 2006.
